MEMORANDUM FOR: Chief, Materiel Branch, DPD-DD/P

SUBJECT : POL Requirements

REFERENCE : Memo to Chief, Materiel Branch, subject:  
POL Requirements; dated 28 December 1959

1. I called [REDACTED] about the POL question. He informed me that all support for the C-130 aircraft in this area has been laid on by the United States Air Force and all subordinate units so informed by Headquarters, USAF. [REDACTED] stated that there is no need for us to levy this requirement on USAF unless the support has not been provided. [REDACTED] asked that we inform him if the support has broken down or has not materialized. If not, then everything is laid on.

2. I asked [REDACTED] if he had any particular problem with POL support. He stated he had no problem but was merely being cautious by making sure the petrol didn't run out. [REDACTED] also stated that all support for the C-130's was adequate.

3. I called [REDACTED] back and informed him that we had no particular problem with POL - merely that we wanted to be sure that everything had been laid on insofar as support of this operation was concerned. He stated that everything was provided for. If any of the support breaks down, etc., he would like to hear about it so that he may take corrective measures.
